

Valid for 2022.HS

Module Name: Advanced International Business	
Module Code	w.BA.XX.2AIntBus.XX
Module Description	This module provides a systematic consolidation of international business management concepts through profound insights into managing international business operations while addressing potential business risk. Students are enabled to operationalize a firm's internationalization process by analyzing its readiness to expand globally, assessing and selecting feasible foreign markets, calculating the cost of international operations, building up international ecosystems, leading and managing international employees and teams, evaluating and managing risk, as well as negotiating and communicating across cultures.
