

2019.FS

Module Name: Bachelor's Thesis	
Module Code	w.BA.XX.2Ba-BL.XX
Module Description	Students work to produce their own scientifically-grounded thesis based on a task that is either science-related or practical in nature. In doing so, they address an issue they have chosen or one that has been selected for them. They analyze the task, conduct an in-depth analysis of the situation, and derive recommendations for resolving the problem on the basis of this analysis. In this context, students utilize the knowledge and skills they have acquired during the study program in a purpose-oriented, effective, and efficient way while acquiring additional specialist knowledge. The Bachelor's thesis is consequently a reflection of students' ability to work pro-actively and of their growth in this capability as a result of the study program.
