

Valid for 2022.HS

Module Name: Corporate Finance & Risk Management	
Module Code	w.BA.XX.2CFRM.XX
Module Description	The module consists of two parts: Corporate Finance and Corporate Banking. The main objective is for students to understand investment and financing decisions both from a firm's and a bank's perspective. Students are proficient in the methodologies that are required to analyze investments, corporate finance strategies, instruments for financing, and dividend policy. They also understand the basic concepts of corporate banking (credit process, credit analysis, and credit management).

Comments	<p>Talk/oral presentation</p> <p>Students will create a video file of a presentation (incl. oral comments) on an assigned topic. The presentation is uploaded to Moodle and is part of the module content in the sense of a flipped classroom scheme. Students can earn a maximum of 15 points for the presentation. A maximum of 75 points can be obtained in the end-of-module exam. The module grade is then calculated from the total of points (max. 90).</p> <p>E-assessments</p> <p>Two Moodle quizzes (e-assessments) must be taken during the semester. Each quiz has to be answered within a window of two weeks as per the individual announcement at the beginning of the semester. The quizzes are not available outside these time slots. To pass a quiz, at least 75% of the answers must be correct in each case. Failure to pass either e-assessment will result in the deduction of one grade point from the final module grade. A failure to pass both e-assessments will result in the deduction of two grade points.</p>
