

2019.FS

Module Name: Human Capital Management	
Module Code	w.BA.XX.2HCM-en.XX
Module Description	Students gain a profound understanding of human capital management as a central component of company management. HCM is aimed at generating added value for the corporation by making the best use of the human capital required at the right time and price and in the right quantity. Students broaden their knowledge in the three strategic fields of HCM (HC Marketing, performance management, and competence management). HC marketing plays an important role in attracting and securing the required human capital. Students learn that efficient and effective management of corporate and employee competences is a prerequisite for sustainable competitive advantage. Further insights into performance management provide students with an opportunity to recognize and understand motivational aspects of individuals and organizational units, which have a direct link to the value creation. Knowledge management as a prerequisite for the development of corporate and individual competencies as well as different instruments of strategic workforce development make up the focus of competence management. This module aims to demonstrate the close links between the three fields of HCM and how they should be managed by leaders in order to ensure efficient and effective HCM.

Comments	For the group paper & presentation, a pass/fail grade will be awarded. For a pass, students will be credited with 10 points that will be added to the points earned at the end-of-module exam. Sanctions imposed in the case of a fail: In order to be admitted to the end-of-module-exam, an additional task must be completed outside normal teaching hours and submitted to the course instructor. However, no additional points will be credited for the end-of-module-exam. Unexcused absences or failure to complete an additional assignment will result in a fail. Students who fail this task are not eligible to take the end-of-module-exam.
