Module Name: Applied Research Projects		
Module Code	w.MA.XX.POPF-M11-PiE.18HS	
Module Description	Students participate in application-oriented research projects. They consolidate their professional, methodological, and social competence and further develop the methodological expertise acquired in Modules 9 and 10. They combine their methodological competence with applications in their field of study and thus improve their professional competence. The topics they work on should have a high degree of practical relevance. The practically oriented research projects must comply with academic standards in terms of structure, methodology, analysis, innovative nature of content, and relevance. Mere consulting or service projects must be avoided. The research topic must be complex and suitable for investigation using scientific methods.
