Module Name: Case Study 1	
Module Code	w.MA.XX.CAST1.23HS
Module Description	This module gives students the opportunity to integrate the theories and concepts learned during their studies and apply them to theoretical and real-world cases involving circular economy management. Case Study 1 will offer an interdisciplinary view of circular economy and will allow the students to understand and appreciate the inter-connectedness of various functions and disciplines. By linking theory and practice, students receive a more comprehensive understanding of the different aspects of circular economy challenges and management. Case study work will be in teams and orientated to the selected cluster topic. A supervisor will coach students and challenge students to reflect on and learn from their case study work. Case Study 1 will focus on research methods, data collection, and analysis.
